# TREO UNDERWATER LED LIGHT

## COLOR LED + WHITE ONLY LED

**TREO**™  
LED UNDERWATER LIGHT

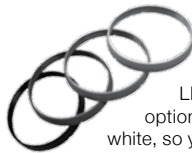

### DESCRIPTION

The new TREO is a retrofitable Even Glow 12VAC, 5 Watt LED underwater light that features a soft, evenly distributed light. The design provides outstanding illumination qualities, eliminating the end shadow effect common with other pool lights. The Treo underwater LED light is available with a 50,000 hour color changing LED array that has six lock-able colors and two color change modes, and a new white LED only version. It will color synchronize with the Light Streams series of water features making it a great value in the growing family of 12VAC products by Fiberstars. This family of high performance, low power consumption lighting products can be wirelessly controlled by the Fiberstars 12V Power Centers that include the PT-6000, WIRTRAN, WPC1-XXXX-T and WPC2-XXXX-T. See Control Systems section for more information.

### FEATURES & BENEFITS

- No Earth Bonding Required
- Non-Leak Water Seal (No Polycarbonate used)
- Color changing Digital Array
- 50,000 hour lamp life
- Color lock on six different colors; white, blue, green, red, amber, purple
- Color change mode and Disco effect
- Retrofits most existing fiber installations
- \*Installs into Standard 1.5" wall fittings
- True White LED available
- Only requires 3" straight 1.5" pipe.
- Replaceable LED Lamp

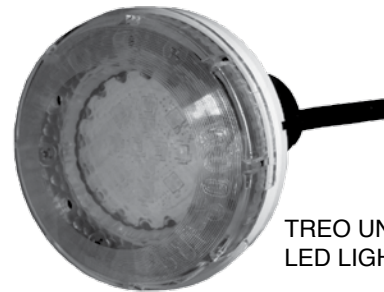

\* Due to the variety and large number of manufacturers fittings available it may be necessary to field modify the internal shoulder if it is too shallow or too thick. This can be performed in the field in about 1-2 minutes with a 1-3/4" hole saw or small sanding drum.

Trim rings included with the Treo Underwater LED Light come in four color options; black, gray, beige and white, so you can match your light to the surface of your pool or spa.

TREO Underwater LED Combo Kit with 1, 2, or 3 lights available.

TREO UNDERWATER LED LIGHT

**Basic requirements:** Standard 1.5" wall fitting with exposed face and internal threads - initially connects to 1.5" waterproof conduit which terminates and seals above ground.

# UNDERWATER LED LIGHT

## COLOR LED & WHITE LED

### DESCRIPTION

The Underwater LED Light is a soft and evenly distributed light. The lens provides the Underwater LED Light with an outstanding illumination, eliminating the end shadow effect common with other existing pool lights. The Underwater LED Light is available with a 50,000 Hour Color change LED or White LED. The Underwater LED Light operates from a safe 12V supply and is UL approved. The Underwater LED Light has a unique extraction system allowing the light to be simply removed from the pool wall when the lamp has to be replaced as illustrated below. This is a great design for fiberglass pool installations.

### FEATURES & BENEFITS

- Best light for Fiberstars pools
- No Earth Bonding Required
- Color changing Digital Array
- 50,000 hour lamp life
- Color lock on six different colors; white, blue, green, red, amber, purple
- Color change mode and Disco effect
- Flexible Lens
- True white LED available
- Replaceable LED Lamp
- 5 watt each

Synchs with Color Light Streams LED Water Feature.

# NEW + IMPROVED! LED LARGE LAMINAR

## DESCRIPTION

The Light Stream™ Large Laminar with internal, color changing, synchronizable, L.E.D. lighting, that is completely self contained. Lend a dramatic splash to a backyard with Color Light Streams Large Laminars. Each Large Laminar comes with a Deck Box and an L.E.D. light driver, which includes a 100' of 12V cable.

## NEW FEATURES

- Quick connect - disconnect water flow
- Better light output with direct drive LED only (no fiber)

## SPECIFICATIONS

The water supply to the laminar flow fountain should be filtered with a cartridge filter. Sand filter and DE filters will produce small particles of debris that will clog the internal filter screens of the laminar flow fountains.

- Must have drain installed.
- 6 Vibrant Colors; white, blue, green, red, amber, purple
- Color change mode and Disco effect
- The Large Laminars are designed for total water throws.
- 5 watt each

Example : 6' up, 6' out  
           5' up, 5' out  
           4' up, 4' out

*Large laminars are more dramatic when the laminars are placed with the water flow aimed towards the main viewing area.*

DECK BOX

## SYNCHRONIZES WITH TREO UNDERWATER LED LIGHTS!

PART NUMBER	DESCRIPTION	LIST PRICE
CLSLL	Color Light Streams Large Laminar - Incl. Deck Box & LED Light Driver	\$859.99

# NEW BUBBLER/WATERFALL POT

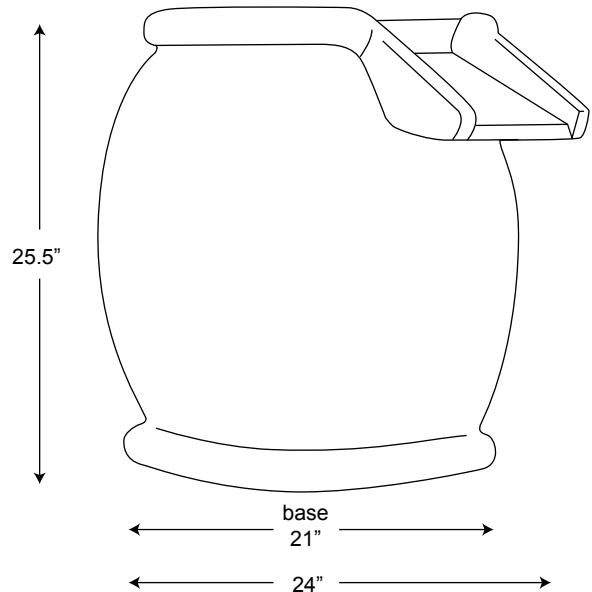

## DESCRIPTION

The Lighted Bubbler Pot is an innovative product that provides incredible sound and light and the perfect accent for any pool. They work very well on pools without a raised bond beam so they are well suited for vinyl and fiberglass pools. If used on a raised bond beam it will enhance the visual cascade of streaming color.

These lightweight pots are easy to handle and designed for easy installation with a simple water supply and conduit for low voltage cable or fiber. They come in two options that include a self contained LED Color Changing Driver or 45' of 175 strand fiber pre-attached in two bundles; one for the lighted fill bubbler and one for the lighted spillway.

## FEATURES

- Lighted Bubbler & Lighted Spillway
- Constructed with Lightweight Materials
- LED or Fiber Optic versions
- Only requires 5 Gpm flow
- Easy Installation
- Great for Fiberglass and Vinyl Pools
- Works on pools with or w/o raised bond beams

PART NUMBER	DESCRIPTION	LIST PRICE
CLSDLP	Color Light Streams Deluxe Lighted Pot - includes lighted fall, bubbler and 12VAC LED light source	\$935.33
DLP-45	Deluxe Lighted Pot w/ 45' of 175 strands of fiber (divided in 2 cables), fiber illuminator required	\$990.67

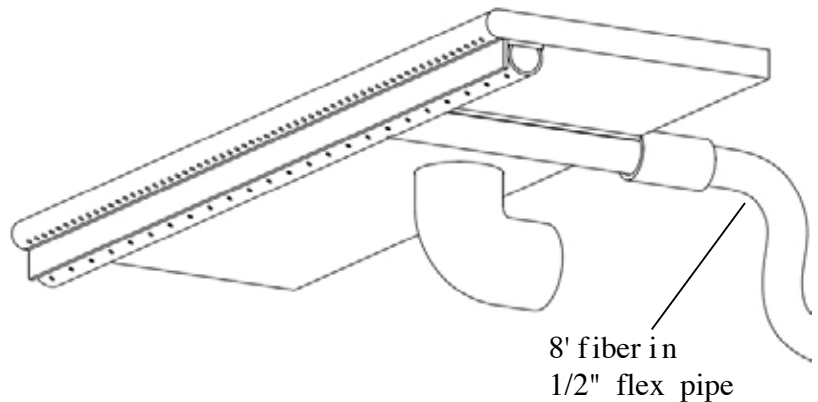

# LED RAIN FALL

## DESCRIPTION

These stunning color changing, synchronized, L.E.D. lighted Rain Waterfalls enhance the beauty of any backyard. Color Light Streams Lighted Rain Waterfall is available in three different sizes: 24", 36", and 48" wide. The approximate water flow is between 5-8 GPM per foot of rain.

## FEATURES & BENEFITS

- 4 Strands per 1", enhances light output
- Brightening Shield added  
- hides points of light while reflecting light onto rain droplets.
- 100' 12V Cord
- Color Light Stream LED Driver
- Deck box
- 6 Vibrant Colors; white, blue, green, red, amber, purple
- Color change mode and Disco effect
- 5 watt each

**Note: Allow for bend radius of 3/4' flex PVC**

## SYNCHRONIZES WITH TREO UNDERWATER LED LIGHTS!

CLSRW24-8	24" Color Light Streams Lighted Rainfall with 8' fiber run	\$1,068.84
CLSRW36-8	36" Color Light Streams Lighted Rainfall with 8' fiber run	\$1,248.21
CLSRW48-8	48" Color Light Streams Lighted Rainfall with 8' fiber run	\$1,452.15

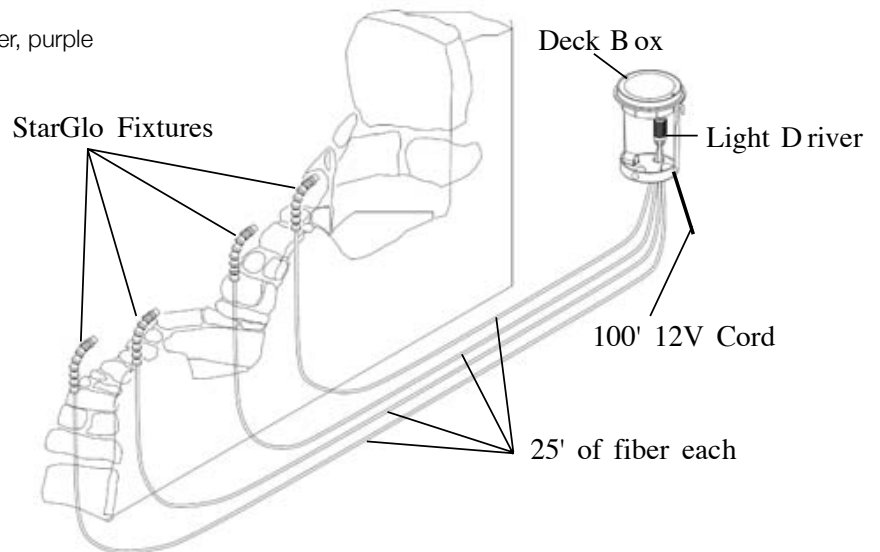

# LED ROCK WATERFALL KIT

## DESCRIPTION

The simplest way of lighting Natural Rock Waterfall is with a color changing, synchronized L.E.D. Rock Waterfall Kit. Each kit comes with 4 Fiberstars' StarGlo fixtures, which have 25' of 50 strand fiber, a Color Light Streams L.E.D. light driver, 100' of 12V cable and a deck box. Each StarGlo fixture is adjustable for an optimum lighting effect, creating an aesthetically pleasing environment.

## FEATURES & BENEFITS

- Each Kit comes with 4 Fiberstars' StarGlo Adjustable fixtures
- 25' of 50 strand fiber
- Color Light Streams L.E.D. light driver
- 100' of 12V cable
- Deck box
- 6 Vibrant Colors; white, blue, green, red, amber, purple
- Color change mode and Disco effect
- 5 watt each

**SYNCHRONIZES WITH TREO UNDERWATER LED LIGHTS!**

PART NUMBER	DESCRIPTION	LIST PRICE
CLSLR-4	Color Light Streams Rock Waterfall Kit. Comes with 4 StarGlo fixtures, each with 25' of 50 strand fiber.	\$1,071.30

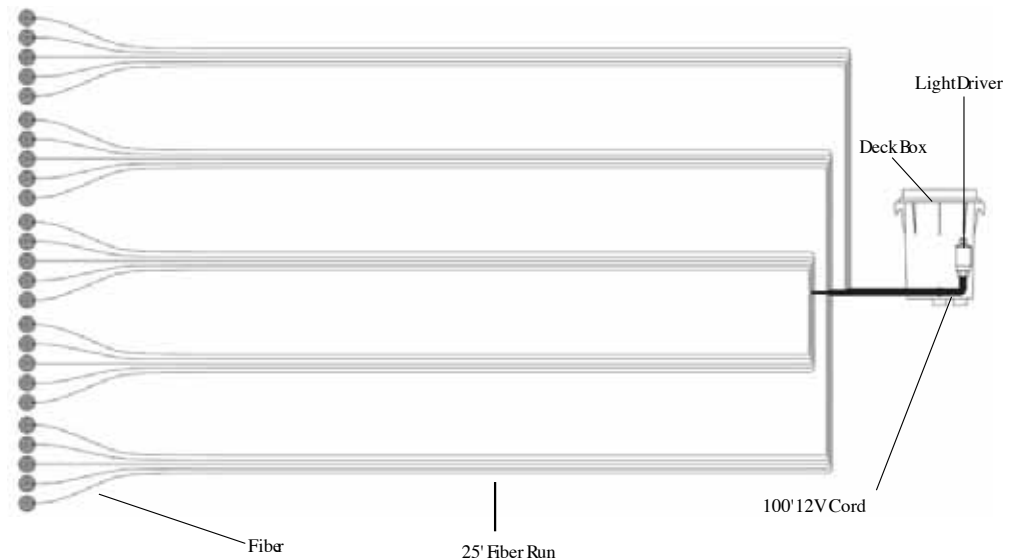

# LED STAR FLOOR KIT

## DESCRIPTION

An easy way of creating fiber optic points of light in floors, swim outs and steps for the gunite pool builder. Fiberstars has taken the custom job and created two unique and easily installed kits for the gunite pool. Star Floor Kits work with any interior surface materials. They come with 60' of fiber pre-attached and are available in 2 kits: 10 or 25 points of light. Each fixture has 2 strands of fiber. Now it is easy to add a star in any gunite pool.

## FEATURES & BENEFITS

- 6 Vibrant Colors; white, blue, green, red, amber, purple
- Color change mode and Disco effect
- Each Star Floor Kit comes with 10 Points of light or 25 Points of light that have 2 strands of fiber each.
- 100' 12V cable
- Deck box
- 5 watt each

# NEW + IMPROVED! LED LIGHTED BUBBLER KIT

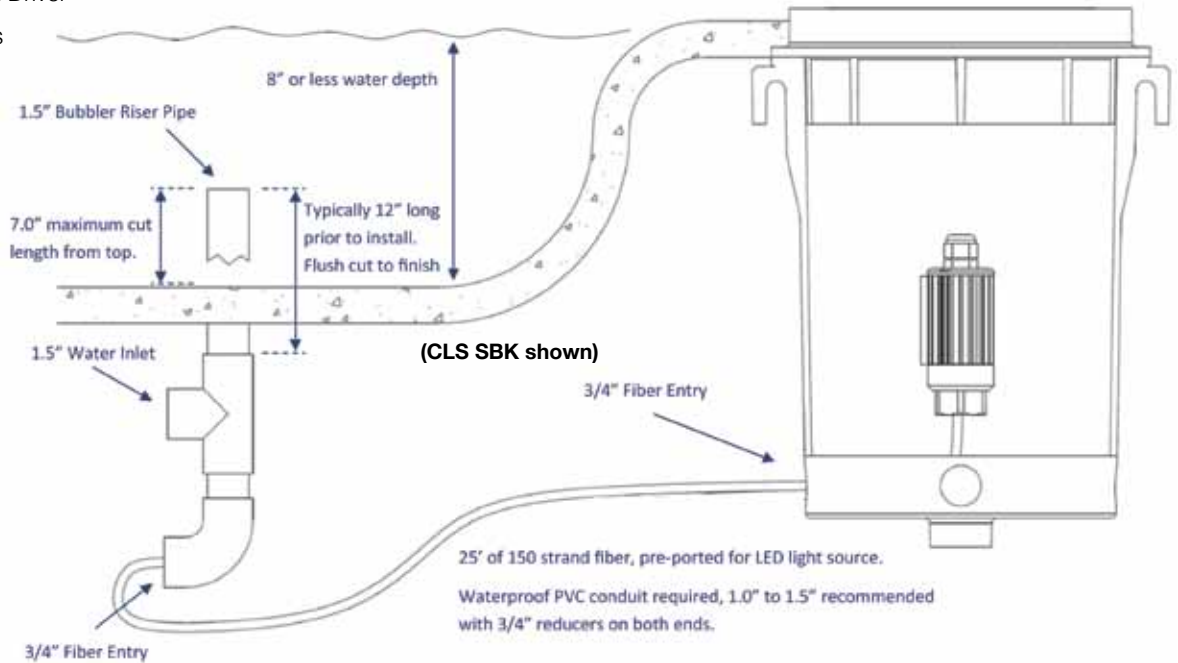

## L.E.D. ILLUMINATED WATER FEATURE

### DESCRIPTION

An easy, fun, and unique way to light a sun shelf, swim-out, or beach entry using color L.E.D. technology. There are 6 vibrant colors and 2 color change modes. You set it the way you like it! It will enhance the beauty of your pool with a splash of color. Simply install both bubblers into the gunite surface and locate the Color Light Streams L.E.D. deck box in the deck or softscape. Supply the water and 12 VAC to complete the job. Each kit comes with 2 lighted bubblers, a Color L.E.D. Light Driver, 100' of 12V cable and a Deck Box. These bubblers can also be used in small fountain areas where lighted bubbling water is desired because they have very simple water flow requirements.

### FEATURES & BENEFITS

- Install 4" - 8" or less below the water's surface.
- Requires 8-10 GPM. 14-16 GPM for Supper Bubbler.
- 100' of 12 V cable
- Deck Box
- Color L.E.D. Light Driver
- 2 lighted bubblers

### SYNCHRONIZES WITH TREO UNDERWATER LED LIGHTS!

**NEW!**  
**PT-6000**  
FIBER TO LED RETROFIT

**DESCRIPTION**

The new PT-6000 has been designed specifically for the seamless conversion of an existing fiber optic pool lighting system to a LED pool lighting system. The PT-6000 is a remote control power center for the Treo family of lighting products.

It is powered by 120VAC and converts to 12V through two separate 30 watt transformers circuits. Each transformer can control up to FIVE Fiberstars LED products. As an example FIVE Treo Underwater LED Lights can be operated on Circuit Number One and up to FIVE Lightstreams Laminar's could be operated on Circuit Number Two. Circuit Number One and Circuit Number Two can be synchronized with the push of a button on the remote control unit. You can use an existing Fiberstars fiber optic illuminator base for installation.

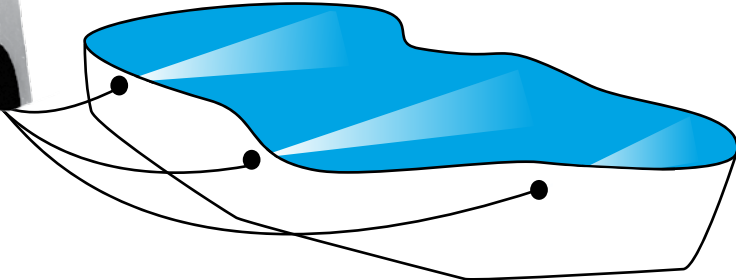

**SYSTEM**

Remote Control

PT-6000

Control up to 5 New Treo Underwater LED Lights on one circuit. PT-6000 has two circuits total, for up to TEN Fiberstars LED products.

**EASY AS 1-2-3-4**

- STEP 1. Pull out the old lens and fiber.
- STEP 2. Pull in your New Treo Underwater LED Lights.
- STEP 3. Change old Tower to NEW LED PT-6000
- STEP 4. Hand your customer their new wireless handheld remote.

**NEW TREO UNDERWATER LED LIGHTS**  
Sold Separately

## FIBER OPTIC LIGHTING

### DESCRIPTION

A multi-color 4-position color wheel, metal halide fiber optic illuminator for underwater lighting and fiber optic water features. If multiple units are required, use 6004 AS.

### SPECIFICATIONS:

#### Construction

- Enclosure: High-Impact Outdoor Grade Polycarbonate
- Ventilation: 110 ft<sup>3</sup> /min.
- Acoustic Rating: 50dB (A)
- Weight: 20 lbs.
- Maximim Fiber Capacity: 450 strand capacity
- Add our optional Constant Color System to increase to
- 600 strands

#### Electrical

- Voltage Requirement: 120 VAC, 60 Hz
- Power Consumption: 200 Watts max
- Start Current Load: 4.4 amps
- Run Current Load: 1.8 amps

#### Lamp

- Type: Metal-Halide H.I.D., Proprietary Design
- Life: 6000 Hours Average
- Cool Down/Restrike Period: 2-3 minutes
- Replacement Lamp Assembly No.: Y20-6000
- Color Temperature: 4300 K

# LENS HOUSINGS

## FIBER OPTIC LIGHTING

### DESCRIPTION

When purchasing Fiber Kits, you need to purchase ONLY the Lens Housings. If you purchase Fiber in Bulk rolls or lengths, you need to purchase BOTH the Lens Housings and Sealed Lens Kits.

#### LENS HOUSINGS

##### LNS-2G (white, for gunite pools)

These lens housings glue onto 1-1/2" PVC pipe. Our Sealed Lens Kits (included on all fiber kits) seats in the housing. 1-1/2" slip connection. Includes: Lens Housing only. NO LENS INCLUDED.

##### LNS-2A (white, for acrylic / fiberglass)

**LNS-2AB (black, for acrylic / fiberglass)**  
These lens housings glue onto 1-1/2" PVC SCH 40 pipe. Includes nuts and gaskets for sealing on acrylic and fiberglass vessels. Our Sealed Lens Kits (included on all fiber kits) seats in the housing. 1-1/2" slip connection. Includes: Lens Housing with nut only. NO LENS INCLUDED.

##### \*LNS-2GI (insider for gunite pools)

These lens housings glue inside 1-1/2" PVC SCH 40 pipe. Our Sealed Lens Kits (included on all fiber kits) seats in the housing. 1-1/2" SCH 40 inside connection. Includes: Insider Lens Housing only. NO LENS INCLUDED.

##### LNS-2V (white, for vinyl liners)

These lens housings have 1-1/2" FIP threads. Includes nut, faceplate, and screws for sealing on the liner. Our Sealed Lens Kits (included on all fiber kits) seats in the housing and is completed by a silicone spacer, which takes the place of the old spacer and gasket. 1-1/2" FIP connection. Includes: Lens Housing with nut, face plate and screws, and silicone spacer. NO LENS INCLUDED.

\* Fits all Treo models excluding LNS-2GI

PART NUMBER	DESCRIPTION	LIST PRICE
LNS-2G	Lens Housing (Wall Fitting) for Gunite - White	\$13.51
LNS-2GI	Lens Housing (Wall Fitting) for Gunite - Insider	\$42.02

LNS-2A	Lens Housing (Wall Fitting) for Acrylic - White	\$17.57
LNS-2AB	Lens Housing (Wall Fitting) for Acrylic - Black	\$28.63

# FIBER KITS

## FIBER OPTIC LIGHTING

### DESCRIPTION

All fiber kits include our Sealed Lens assemblies, which are the KL2-SF for kits with up to 75 strands OR the KL2-PF for 100 strands and up. You only have to purchase the Lens Housings to complete the installation if you are using a fiber kit.

Use 2004, 2004-AS, 6004, 6004-AS or 409 Series Illuminators for best lighting.

### FEATURES & BENEFITS

- Fiber Construction Type: High Quality LK Grade Fiber Optic Strands
- Individual Fiber Thickness: .75mm
- Outer Casing Material: PVC based polymer
- Kits Include a KL2-PF or KL2-SF sealed lens assembly pre-installed.
- Only purchase the lens housing to complete installation if you are using a floor kit.

# FIBER LIT SHEER WATER FALL

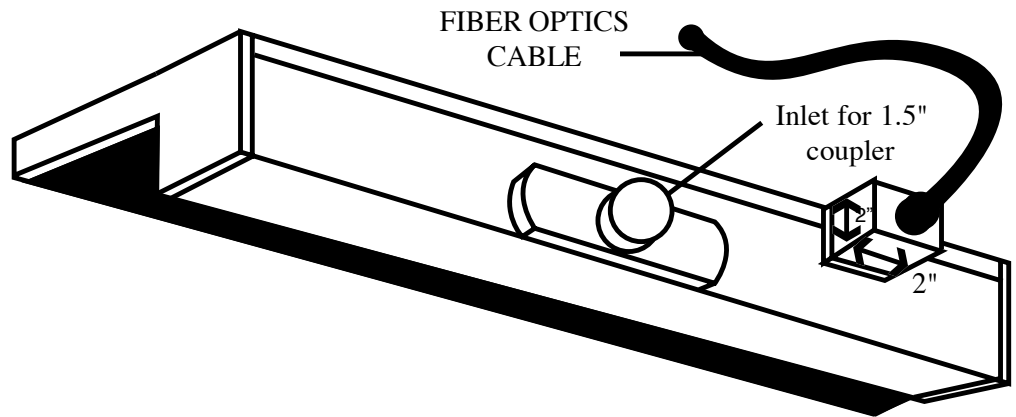

## DESCRIPTION

These unique Fiber Lit Sheer WaterFalls come complete with fiber pre-attached. Fiberstars Lighted Sheer Waterfalls adds dramatic nighttime excitement that is breathtaking. The Sheer Waterfall is available in five different sizes, listed below.

Our Lighted Sheer Waterfalls requires the least amount of fiber for the maximum amount of light output. Each one comes with 45' of pre-attached fiber. 5-8 GPM per foot.

## FEATURES & BENEFITS

- Sheer Waterfalls come complete with fiber pre-attached.
- 5-8 GPM(Gallons per minute)
- 45' of pre-attached fiber
- The Sheer Waterfalls come in straight, non-radius designs only.

**Straight Only**  
**RADIUS NOT AVAILABLE**

PART NUMBER	DESCRIPTION	LIST PRICE

*Use 2004, 2004-AS, 6004, 6004-AS or 409 Series Illuminators for best lighting.*

# FIBER OPTIC RAIN FALLS

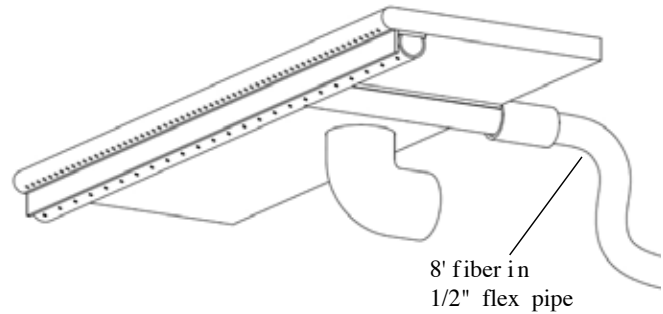

## DESCRIPTION

Fiberstars Lighted Rainfalls are designed to provide single rows of water and project them away from the falls lip at a 45 degree angle. The rows of water simulate the sound and effect of rain falling into the pool creating a unique and pleasant sound for you. The minimum water flow is between 5 and 8 GPM (gallons per minute). Keep in mind that as you increase the GPM flow rate, the further out the “rain” fall will extend from the wall of the pool.

Our Lighted Rainfalls requires the least amount of fiber for the maximum amount of light output. Each one comes with 45’ of pre-attached fiber.

## FEATURES & BENEFITS

- Brightening Shield Added
- Hides point of light while reflecting light onto rain droplets.
- Easy install

**NOT AVAILABLE IN RADIUS!**

PART NUMBER	DESCRIPTION	LIST PRICE
LRWF12-45	12' Rain Waterfall with 45' of 25 strand fiber	\$438.15

Use 2004, 2004-AS, 6004, 6004-AS or 409 Series Illuminators for best lighting.*

# FIBER OPTIC WATERFALL LIGHT BAR

## DESCRIPTION

Fiberstars Lit Waterfall Light Bar Kit allows you to add color to waterfalls and rainfalls. This light bar easily mounts to the bottom lip of a sheer waterfall or rainfall, straight or radiused. There are two fibers per inch that aim down to light the water flow. A 3/4" conduit is placed next to the waterfall so you can run fiber back to the illuminator.

NOTE: For standard Light Bars, the fiber tail exits out of the left side. Reversed Light bars are now available (fiber tail exit on the right side). Add an "R" to the part numbers below. This will enable you to combine two lightbars to make 6', 7' and 8' sizes. No additional cost.

## FEATURES & BENEFITS

Waterfall Light Bar light output is more dramatic on rainfalls vs. Sheerfalls

PART NUMBER	DESCRIPTION	LIST PRICE

# NEW & IMPROVED! FIBER OPTIC LAMINAR - LARGE

## DESCRIPTION

These beautiful Laminars are perfect for night time viewing either individually or in multiple arrangements. Fiberstars Large Laminar Flow Fountain comes with 20' or 40' of fiber preattached. It includes a Light Enhancement Device (built in), which is a fully adjustable device for increasing the light output in the water flow. The fiber and laminar are produced together for an optimum light output. For best lighting results, keep the water throw under 6' up and 6' out, for best lighting output you should aim these at the viewing area.

DIMENSIONS OF DECK BOX: 19 3/4" H x 13 1/2" W. The deck box lids can be painted to your desired color. Use paint that is suitable for use on ABS materials.

## NEW FEATURES

- Quick connect - disconnect water flow
- Better light output with direct drive LED only (no fiber)

## SPECIFICATIONS

- Must have drain installed.
- The Large Laminars are designed for total water throws.

Example : 6' up, 6' out  
           5' up, 5' out  
           4' up, 4' out

*Large laminars are more dramatic when the laminars are placed with the water flow aimed towards the main viewing area. A separate cartridge filter is required for installation.*

# FIBER OPTIC BUBBLERS

## DESCRIPTION

The Fiber Optic Bubbler has 75 Strands of Fiber. Perfect for sun shelves, swim outs, beach entry areas, or small fountain areas. Provide that splash of color in a flume of water approximately 3" - 5" above the water surface, when installed in no more than 4" - 6" of water.

Fiberstars Bubbler Deluxe mounts flush on sun shelves, swim outs, etc. You can locate the bubbler just under or out of the water on fountains for two completely different effects. Each bubbler is preassembled for easy connection to a water supply line and a conduit connection for the fiber. The bubbler comes with 45' of 75 strand fiber pre-attached. It has simple water flow requirements and needs 1-1/2" plumbing for water and 3/4" conduit for fiber.

## FEATURES & BENEFITS

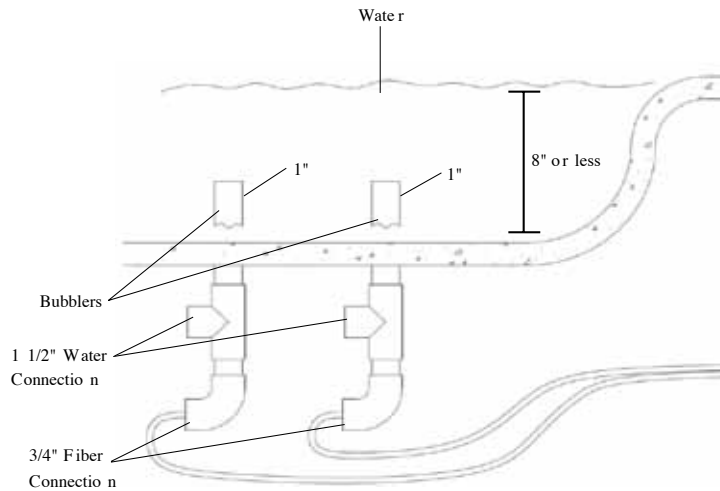

- The Lighted Bubbler Deluxe may be installed in many different methods and applications, such as:  
Flush with interior surface, raised off the surface area but with the tip under the water surface (typically fountains), or raised above the water surface (typically fountains).
- The minimum flow rate is 8-10 GPM.  
14-16 GPM for Supper Bubbler.
- Easy install

### SBK-45

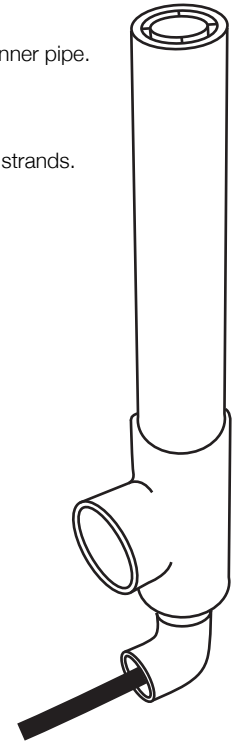

1.5" riser with 1" inner pipe.  
150 strands.

### BLK-DL-45

No inner pipe. 75 strands.

NOTE: 2CLS BK diagram. Not for fiber only versions.

PART NUMBER	DESCRIPTION	LIST PRICE
SBK-45	Super Bubbler Kit	\$378.56
BLK-DL-45	Lighted Bubbler Deluxe kit with 45' of 75 strand fiber pre-attached	\$378.39
BLK-DL-45F*	Lighted Bubbler Deluxe kit with 45' of 75 strand fiber pre-attached For FIBERGLASS pools	\$434.91

Use 2004, 2004-AS, 6004, 6004-AS or 409 Series Illuminators for best lighting.

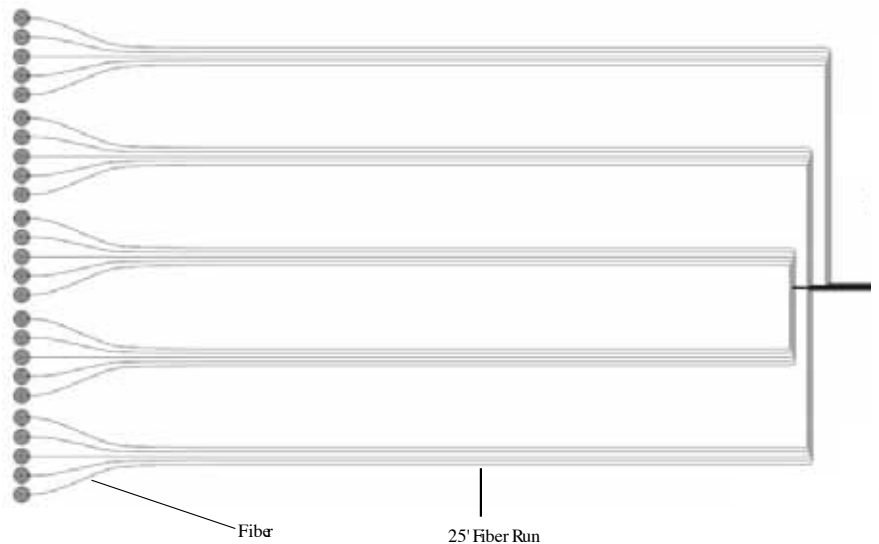

# FIBER OPTIC STAR FLOOR KIT

## DESCRIPTION

An easy way of creating fiber optic points of light in floors, swim outs and steps for the gunite pool builder. Fiberstars has taken the custom job and created two unique and easily installed kits for the gunite pool. Star Floor Kits work with any interior surface materials. They come with 60' of fiber pre-attached and are available in 2 kits: 10 or 25 points of light. Each fixture has 2 strands of fiber. Now it is easy to add a star in any gunite pool.

## FEATURES & BENEFITS

These unique fixtures and fiber optic cable kits will allow for the installation of fiber optic lights into the interior of a gunite pool. These kits are NOT designed for use in fiberglass or vinyl pool applications. This product requires no maintenance. Over time, as the Star Floor fixture tips become rougher, the tips will glow even brighter. Multiple kits can be used to create more elaborate effects.

## TURN KEY SOLUTIONS AVAILABLE

### CUSTOM STAR FLOOR PROGRAM

- Complete Turn Key Bid
- Installed by Factory Trained Crews
- 48 Hour Bid Turnaround

**WE DESIGN IT - INSTALL IT - LIGHT IT**

**CONTACT FIBERSTARS OR YOUR FIBERSTARS REPRESENTATIVE FOR MORE INFORMATION.**

PART NUMBER	DESCRIPTION	LIST PRICE
SFK10-60	10 Floor Fixtures (2 Strands of fiber ea.) for gunite pools- Includes 60' of pre-attached fiber	\$302.22
SFK25-60	25 Floor Fixtures (2 Strands of fiber ea.) for gunite pools- Includes 60' of pre-attached fiber	\$764.16

*Use 2004, 2004-AS, 6004, 6004-AS or 409 Series Illuminators for best lighting.*

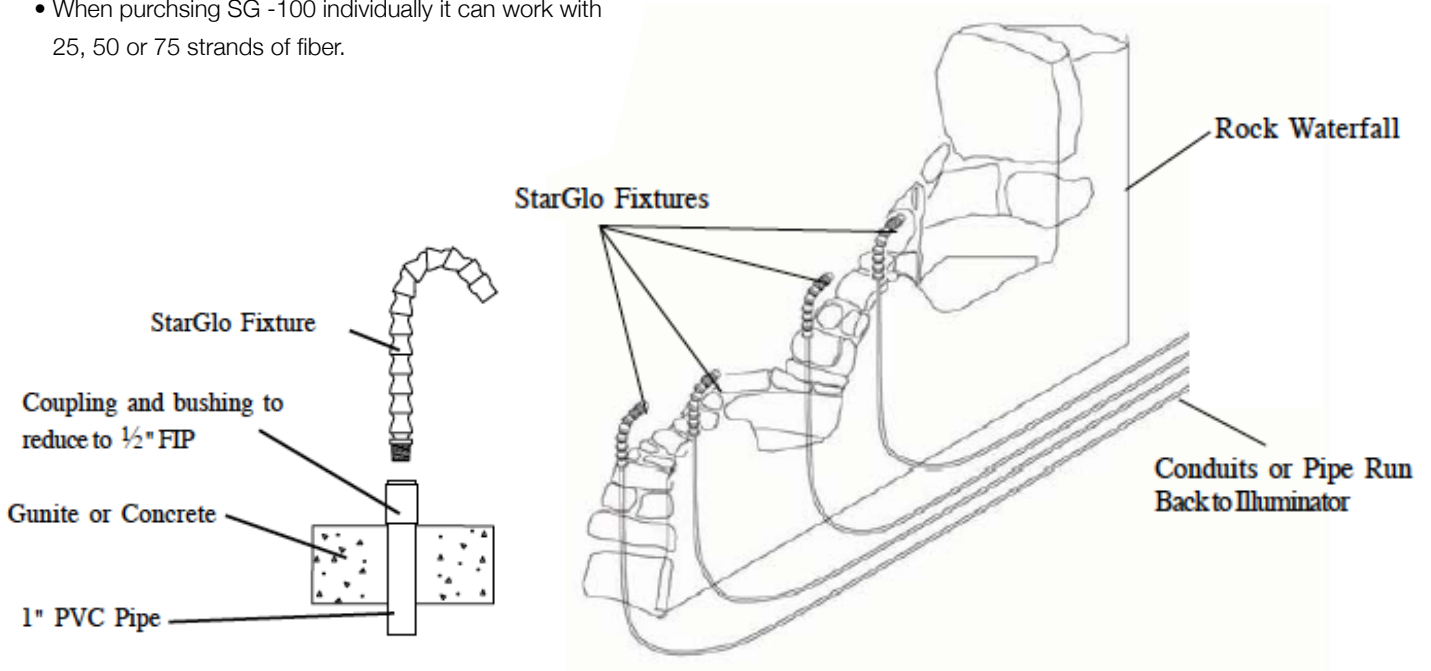

# STARGLO LIGHT FIXTURE

## DESCRIPTION

StarGlo fixtures are flexible and are great for lighting up rock waterfalls and landscape features. Using StarGlo fixtures (or kits) you can light areas of cascading water in the waterfall. The StarGlo fixtures should be placed above water level and pointed towards areas where the most water action will occur. This will typically be at the bottom of a waterfall with the StarGlo pointed back towards the cascading water. DO NOT place the StarGlo submerged under water! It is NOT a watertight fitting!

## FEATURES & BENEFITS

- Works with 25, 50, or 75 strands of fiber
- When purchasing SG -100 individually it can work with 25, 50 or 75 strands of fiber.

**NEW!**  
**LED LANDSCAPE**  
**OUTDOOR LIGHT FIXTURE**

The Commercial 120VAC LED Landscape Light choices will include both small and large versions in a narrow spot (NSP) and flood (FLD) beam configurations in any color as long as it's black. All versions will require waterproof, hard conduit to the light fixture (1/2" NPT for small & 3/4" NPT for large fixtures). Includes yoke for mounting on wall, other mounting methods will require additional parts not included.

**FEATURES & BENEFITS**

- High output LED with minimal power consumption
- Rugged exterior to hold up to nature's forces
- Rated life of 50,000 hrs to 70% lumen maintenance
- Bright white light illuminating your building for increased visibility and safety
- Tilt adjustability to highlight or evenly illuminate your façade
- Easy retrofit with slip fitter mount and hard wire ready
- Available in 15 or 26 watt with 11 degree Narrow Spot beam spread or 40 degree Flood beam spread.
- LTL tested in accordance with LM-79 standards for electrical and photometric measurements of LED fixtures
- Cree™ LEDs tested in accordance with LM-80 standards for measuring lumen maintenance of SSL sources
- UL listed for wet locations
- Standard 5 year warranty
