A Fresh Approach

Your water starts out fresh and clean. FROG helps keep it that way by using minerals to destroy bacteria so far less chlorine is required. Your water will look inviting and feel silky soft without faded swimsuits or smelly odors.

Fresh Mineral Water Easy™

Quench Your Thirst For Fun

With mineral water, you'll have more time for what really matters, your family or friends splashing, laughing and having a good time! That's because the unique pre-filled FROG components are long lasting and take seconds to replace. It's just easier!

Take a Fresh Look

FROG Fresh mineral water offers recyclable replacements and costs less to run than electrical systems and no corrosion of surfaces or equipment like salt systems. Just Fresh Mineral Water – Easy!

POOL FROG® CYCLER
Easily installs and controls the water flow. For use up to 40,000 gallons.

POOL FROG® MINERAL RESERVOIR
Maintains clearer, cleaner and softer water with much less chlorine. Lasts 6 months.

POOL FROG® BAC PAC
Provides a long lasting low-dose of chlorine pre-filled for no mess.

FROG BAM®
Enhances mineral water with a 90-day algae protection guarantee.

So why have water that claims to be clean, clear or soft when you can have **cleaner**, **clearer** and **softer** water with FROG. The "er" makes all the difference.
