

Directions for use:

Pool Perfect

1. This concentrated formula requires 1oz (30ml) per 2,000 gallons (7,500L) of pool water per week.
2. Each week, add one capful (4oz) per 8,000 gallons (30,000L) of pool water.
3. Add product directly to pool water.

Note: Do not add if chlorine is higher than 5ppm. Chlorine higher 5ppm will burn off the product making it ineffective.
