is Simple Spa Care for sensitive skin*

**IT'S  
TIME  
TO  
FEEL  
Free!**

*Chlorine-Free, Bromine-Free, Odor-Free*

## *A Difference You Can Feel.*

*Do you have sensitive skin? Then you know how irritated it can get with traditional spa sanitizers. With Leisure Time's **Free** sanitizing system, you can literally feel the difference in your spa water. This 100% chlorine-free, bromine-free, odor-free sanitizing system is easy on sensitive skin while keeping water crystal clear and clean. And you won't have to worry about it fading your bathing suit or damaging your hair. **Free** is a softer, gentler way to sanitize.*

*It's Simple Spa Care for sensitive skin.*

# Chlorine-Free Spa Sanitizing System

## Free™

100% chlorine and bromine-free, **Free** is gentle on eyes, hair, skin, even swimsuits. It's also virtually odor-free and controls bacteria longer than chlorine or bromine. And because it doesn't affect pH levels, **Free** requires less maintenance than traditional sanitizing systems, leaving you with more time to enjoy your spa.

## Boost™

Specially designed to be used with **Free**, Leisure Time **Boost** is a non-chlorine liquid shock oxidizer formulated to break down oils, lotions and other organic materials. Used with **Free** as part of the Simple Spa Care Program, **Boost** improves filtration while keeping water clean and clear.

## Control™

**Control's** special formula prevents stain, scale, and unsightly waterline film from forming around the perimeter of the spa. Use at start-up and weekly as part of the **Free** Sanitizing System.

*See back panel for additional Free Sanitizing System products and accessories.*

## Also available:

### *Cleanse™*

A concentrated cleaner designed to work specifically with the **Free** Sanitizing System.

### *Free™ Test Strips*

Provide fast, easy and accurate readings of biguanide, calcium hardness, alkalinity and pH levels.

### *Free™ Sanitizing System Kit*

Includes everything a spa owner needs to start up a spa with the **Free** Sanitizing System.
