FIBER TO LED TRANSFORMATION

BEFORE
5 Fiber Optic Lights

AFTER
3 LED Lights

Between the 1980's and early 2000's fiber optic lighting was commonly used in swimming pools. Over time, fiber can degrade, leaving pools looking dark, dull, and dated. S.R.Smith **Power Tower (PT-6001 & PT-6002) Fiber to LED Conversion Kits** give builders and service companies a solution to upgrade fading fiber to LED lighting using the existing fiber conduit.
MORE FEATURES, MORE DURABILITY, MORE SPACE, MORE VALUE.

1 = 2 Mod-Lite™ Wireless Lights
2 = LED Star Feature Lights

1 = 2 Kelo LED Lights
2 = 1 Micro LED Light

1 = Pool/Spa
2 = Landscape Lights

Our **poolLUX Plus2** and **Power Tower PT-6002** provide dual-zone capabilities, designed for applications where 2 zones of lighting are desired.
