

## Aqua Silk™ Chlorine-Free Sanitizer

**Aqua Silk™ Chlorine-Free Sanitizer** is a highly stable and effective alternative to traditional pool sanitizers. It provides consistent control of bacteria and algae in swimming pool water and will last longer than chlorine without odor or unwanted side effects.

### Features:

- Not affected by sunlight, temperature or pH fluctuations
- Provides dependable, consistent bacteria control
- Gentle on hair, eyes, skin, swimsuits and pool liners

### Applications:

#### Start Up:

Once the chlorine residual drops to zero, pour into the skimmer at the rate of 56 ounces for every 10,000 gallons of pool water to establish a sanitizer level of 50 ppm.

#### Weekly Maintenance:

Maintain a sanitizer residual of 30-50 ppm at all times. Refer to the **Aqua Silk™** Users Guide for dosage rates.

### Sizes:

1/2 gallon

### Tips:

For best results, use with the Aqua Silk™ Non-Chlorine Pool Care System.

### Compatible With:

**Aqua Silk™ Chlorine-Free Shock Oxidizer**  
**Aqua Silk™ Algaecide**

### Advantage:

Chlorine-free and bromine-free  
Perfect for swimmers with  
sensitive skin  
No harsh odors
