

## Pristiva System Products

Product Code	Description	Size
<b>PRU35020</b>	Pristiva Activator	1 x 40 LB
<b>PRU35040</b>	Pristiva PRIMER	12 x 2.4 LB
<b>PRU35045</b>	Pristiva Rapid Action Stabilizer	6 x 4 LB
<b>PRU35055</b>	Pristiva Acid Enhance	4 x 1 Gallon
<b>PRU35060</b>	Pristiva Salt Cell Cleaner	12 x 1 Quart

### **PRU35020 Pristiva Activator**

**1 x 40 LB**

Establishes salinity levels and delivers the full balance of enhancers needed to activate the total benefits of the Pristiva Perfect Pool.

Maintains pool salinity levels throughout the pool season.

Delivers crystal clear, soft, soothing waters unmatched by traditional salt water pools and traditional chlorine pools

### **PRU35040 Pristiva PRIMER**

**12 x 2.4 LB**

'Primes' the pool

Immediate protection against stains, scale, corrosion, cloudy water, algae

Aids in creating superior comfort and clarity

**PRU35045 Pristiva Rapid Action Stabilizer 6 x 4 LB**

The fast, effective, unique way to raise stabilizer levels in salt pool water

Starts dissolving immediately for fast, effective results in establishing or raising stabilizer levels

**PRU35055 Pristiva Acid Enhance 12 x 1 Gallon**

The much safer, phosphate & sulfate-free way to adjust pH & Total Alkalinity

Specially designed liquid acid specific for salt pools

Reduces pH and total alkalinity

Safer, will not burn skin and significant reduction in fuming

Helps reduce sulfate build-up which can increase risk and extent of scaling

Common source of sulfates is from dry pH reducers and non-chlorine shocks

**PRU35060 Pristiva Salt Cell Cleaner 12 x 1 Quart**

Cleans cell of scale, organics, metallic deposits, etc.

Offers identical descaling properties of muriatic acid without harmful side effects

No fuming, no corrosion to sensitive cell materials

Will not harm the cell, use anytime the cell requires it

Always prior to winter storage, will not harm the environment when discharged
